

GROWTH, PROTECTION AND FLEXIBILITY

# Income 25<sup>SM</sup>

*Guarantees income withdrawals for life*

*Provides a cumulative 25% bonus to the Benefit Base at the end of year one*

Phoenix Income 25 is an optional Guaranteed Minimum Withdrawal Benefit (GMWB) rider available with Phoenix indexed annuities for an additional fee. This benefit guarantees income withdrawals for one life (Single Life) or two lives (Spousal Life), and provides the potential to grow future income.

### Enhance your annuity with a 25% bonus

Phoenix Income 25 adds a cumulative bonus of 25% of your initial contract value directly to your Benefit Base at the end of year one. You have the flexibility to elect income immediately, however the bonus to the initial benefit base is limited to 12.5% if withdrawals are made in year one.

This bonus does not affect your contract value, but it adds a substantial sum to the Benefit Base, which is a value used solely to calculate the rider fee and your annual benefit amount. The Benefit Base, including the bonus, is not a guarantee of contract value and is not available for withdrawal.

Income 25 is especially suited for those who plan to begin taking income withdrawals only a few years after the rider is purchased. The bonus can help to provide an additional

value to your Benefit Base, which can be beneficial at a time when many retirement assets have been depleted by recent market downturns. Your Benefit Base may also grow through automatic step-ups that can occur annually.

### Automatic step-ups lock in gains

On each contract anniversary, if your contract value is greater than your Benefit Base, your Benefit Base will automatically increase (“step-up”) to equal your contract value.

**Please note:** The rider fee could be increased as a result of any step-up. If so, you will be notified at least 30 days in advance and may decline the step-up to avoid the higher fee. Once this feature is suspended, you will not be eligible for future step-ups unless you request reactivation in writing.

### A 25% BONUS TO GROW INCOME

This hypothetical example shows how the cumulative 25% can increase income potential. It is meant only to demonstrate how the rider is designed to work.

This example assumes an initial investment of \$100,000.

## Lifetime Withdrawals<sup>1</sup>

You can begin guaranteed lifetime withdrawals as early as age 50 up to your annual benefit amount, which is defined as a percentage of your Benefit Base, and determined by the age of the youngest covered person at the first withdrawal. The table below shows age ranges at first withdrawal and the corresponding annual benefit percentages. Once initiated, the annual benefit percentage remains fixed for life.

### ANNUAL BENEFIT PERCENTAGE OPTIONS

Attained Age	Percentage of Benefit Base	
	Single Life	Spousal Life
50-54	3.65%	3.15%
55-59	3.75%	3.25%
60-64	4.10%	3.60%
65-69	4.40%	3.90%
70-74	4.80%	4.30%
75-79	5.10%	4.60%
80-84	6.10%	5.60%
85+	6.25%	5.75%

Your Benefit Base is calculated apart from your contract value and equals your initial contract value plus your cumulative 25% bonus, and applicable automatic annual - step-ups, adjusted for excess withdrawals. The Benefit Base is used solely to calculate the rider fee and withdrawal benefit, is not a guarantee of contract value and is not available for withdrawal. The Benefit Base may grow up to 500% of the initial Benefit Base. Your annual benefit amount, once you begin taking guaranteed withdrawals, is guaranteed for life. Even if your contract value declines to zero, Phoenix will make payments equal to the annual benefit amount for your life (and your spouse's life, if Spousal Life is elected).

**Please note:** Withdrawals prior to age 50 are allowed but will adversely affect the income benefit guarantee, as will withdrawals in excess of the annual benefit amount. For details, please consult your financial representative.

### HOW THE ANNUAL BENEFIT PERCENTAGE WORKS TO PRODUCE INCOME

Year Withdrawals Begin	Benefit Base	Annual Benefit Percentage					
		5.5%		6%		6.5%	
		Annual Benefit Amount	% Initial Contract Value	Annual Benefit Amount	% Initial Contract Value	Annual Benefit Amount	% Initial Contract Value
1	\$112,500	\$6,188	6.19%	\$6,750	6.75%	\$7,313	7.31%
2	\$125,010	\$6,876	6.88%	\$7,501	7.50%	\$8,126	8.13%
3	\$125,010	\$6,876	6.88%	\$7,501	7.50%	\$8,126	8.13%

The chart above is a hypothetical example for illustrative purposes only. It shows annual benefit amounts available for three annual benefit percentage options, subject to year of first withdrawal. This example assumes an initial contract value of \$100,000 with a 25% (\$25,000) bonus to the Benefit Base at the end of year one. The Benefit Base values in the table above are identical to the Benefit Base values in the hypothetical graph on page 1. Withdrawals exceeding the annual benefit amount may reduce or terminate the benefit guarantee. Please contact a financial representative with questions.

This hypothetical illustration is meant only to demonstrate how the rider is designed to work and is not a promise or projection of future returns. Past index performance does not guarantee future results.

Lifetime Guarantees are based on the claims-paying ability of the issuing company.

1. Most annuity contracts permit annual, surrender charge-free withdrawals up to a certain percentage (e.g., 10%) without the purchase of a GMWB rider.

## Fast Facts – Income 25

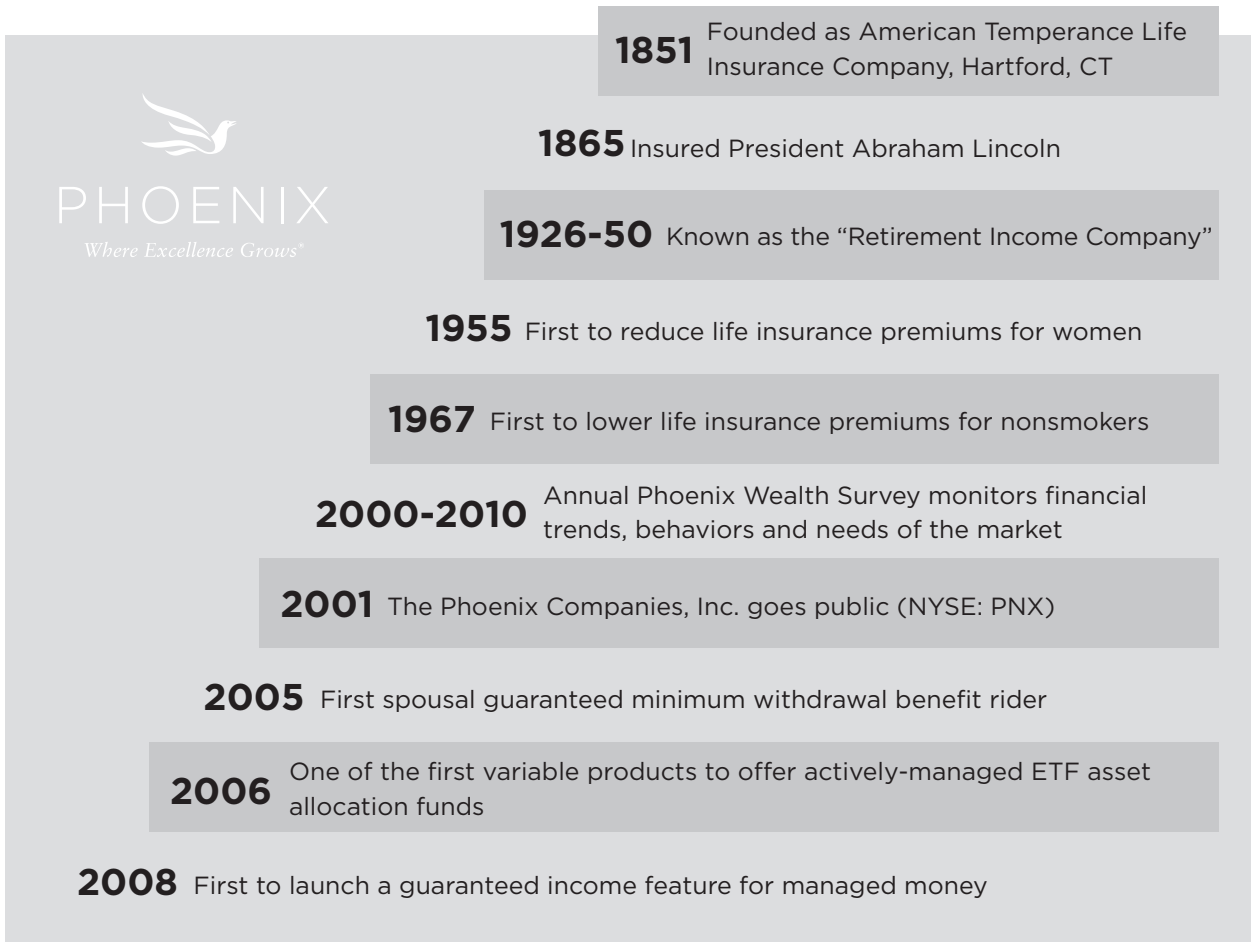

<b>Benefit</b>	Guarantees income for life through withdrawals, and provides the ability to grow future income based on index performance and growth of the contract value
<b>Features</b>	Bonus totaling 25% of initial contract value added to the Benefit Base after the end of year one
<b>Suitable Client</b>	Especially suited to clients who plan to take withdrawals within a few years of rider issue
<b>Annual Fee</b>	Current fee of 0.95% multiplied by the Benefit Base and deducted from contract value at contract anniversary. Fee may be increased at the time of any step-up. Maximum fee is 1.50%
<b>Benefit Access</b>	Starting on or after the younger covered person's 50th birthday
<b>Revocable</b>	Yes (fee will no longer be deducted but the benefit may not be reinstated)

Consult with your financial professional to determine if this rider fits your retirement planning needs.
