Mutual of Omaha

Strong. Stable. Secure.

For more than a century – through recessions and a Great Depression, through two World Wars, through the Roaring '20s, Psychedelic '60s and Go-Go '80s – Mutual of Omaha Insurance Company has been there to keep our promises to our customers. That will not change. Today, we are strong, stable, secure and ready to meet your insurance and financial needs.

THROUGH GOOD TIMES AND BAD, YOU CAN HAVE CONFIDENCE IN MUTUAL OF OMAHA.

A Message to Our Customers

Daniel P. Neary
Chairman and Chief Executive Officer

When it comes to building and protecting your financial future, it's wise to inquire about the strength of the companies in which you have placed your trust.

Rest assured that we are strong, stable, secure and more than able to keep our commitments to you, our customers.

Thanks to our focused business strategy, disciplined investment practices, strong commitment to our customers and talented, engaged workforce, we have built notable financial strength.

Mutual of Omaha Insurance Company is a mutual company. That enables us to focus on the long-term needs of our policyholders, not the short-term demands of the stock market. We have built a policyholder surplus of \$2.3 billion, an amount that represents added security and protection for you.

Our financial strength has been acknowledged by multiple third-party rating agencies, which have evaluated us repeatedly over a number of years and assigned strong ratings.

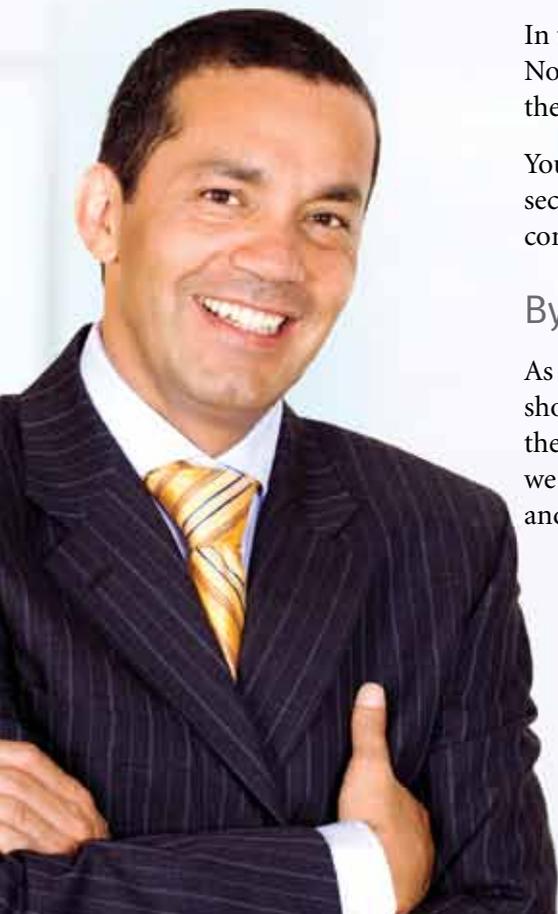

Now in our second century in business, we are committed to providing insurance and financial products that are designed to be a straightforward and affordable way to help customers through the transitions we all face.

This booklet contains more information about our financial strength. It demonstrates that through good times and bad, you can have confidence in Mutual of Omaha.

Sincerely,

A handwritten signature in black ink that reads "Daniel P. Neary". The signature is written in a cursive, flowing style.

We want to address your questions about our financial condition in a straightforward, objective and understandable way.

Mutual of Omaha: Strong. Stable. Secure.

There's no doubt about it – the world is much more financially complicated than it used to be. From flash crashes to bursting bubbles; from credit-default swaps to Alt-A mortgages; from toxic assets to TARP bailouts; we are all confronted with a complex and fast-changing financial landscape.

In today's environment, you need more information than ever about the companies you do business with. Nowhere is that more important than the firms you entrust with your family's financial future. How strong are they? Will they be there when it comes time to pay the promised benefits?

You can count on Mutual of Omaha Insurance Company and its subsidiaries for the strength, stability and security that's even more important in these complicated times. With a firm financial foundation and a lasting commitment to customer service, we can look forward to working together for years to come.

By Our Policyholders, For Our Policyholders

As a mutual company, owned by our policyholders, Mutual of Omaha Insurance Company is not driven by the short-term thinking and focus on quarterly results that often characterize publicly traded companies. While there are benefits to both forms of organization, our mutual structure allows us to ensure that every investment we make is done with the long-term benefit of our policyholders in mind. In addition, our financial strength and ability to operate and grow are not strongly tied to the ups and downs of the investment markets.

Strong Capital Position

In a volatile economy, capital strength gives companies the flexibility needed to weather the inevitable ups and downs they and their customers will face.

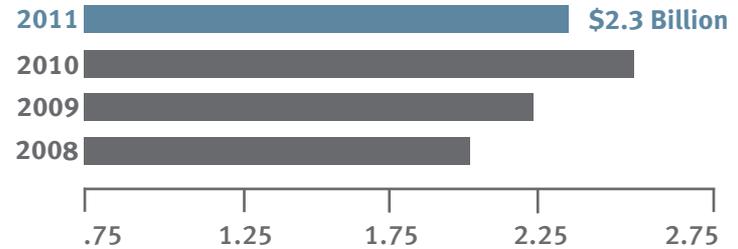

The events of the last few years illustrate the importance of prudent capital management. When the bubble burst, many businesses found themselves in a capital crisis. This erosion of capital, due largely to market declines and losses on risky investments, contributed to the financial crisis that gripped the country.

Mutual of Omaha's capital position is quite strong. Thanks to our disciplined balance sheet management and investment strategy as well as our prudent business philosophy, we have avoided drains on our capital. We said, "No, thank you," to federal bailout money – we simply did not need it to maintain our financial strength and keep our promises to our customers.

As of Dec. 31, 2011, Mutual of Omaha had \$2.3 billion in statutory surplus, a key measure of an insurer's capital strength. That \$2.3 billion represents financial security for our policyholders and ensures we will have the ability to not just survive, but to thrive.

Solid Liquidity

Mutual of Omaha's liquidity position is solid. This is important in uncertain times with unpredictable markets. Ensuring the ready availability of funds to meet our obligations and run our business is an important facet of our operating philosophy. Our investments alone generate more than \$1.5 billion in cash flow each year. If necessary, we also have access to committed bank lines of credit. Further, we are a stockholder in the Federal Home Loan Bank of Topeka and have access to funds from that bank. All of this helps provide assurance that, even in the most challenging times, we will be there to keep our promises.

**WITH A FIRM FINANCIAL FOUNDATION AND A LASTING COMMITMENT TO CUSTOMER SERVICE,
WE CAN LOOK FORWARD TO WORKING TOGETHER FOR YEARS TO COME.**

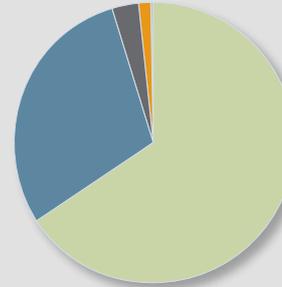

Disciplined Investment Strategy

No one really knows what will be the next high-flying, or free-falling, investment. That's why Mutual of Omaha uses a time-tested, disciplined investment strategy to build the portfolios that support our products for our customers. While investing inherently involves some risk, our thorough investment analysis and decades of experience allow us to build portfolios that offer attractive returns with appropriate levels of risk.

Limited Equity Market Exposure

From record-setting peaks to hair-raising declines, dramatic swings in the stock market over the last few years have challenged investors. Mutual of Omaha has limited exposure to the public equity markets. As a result, stock market volatility has not had a material impact on our financial position.

High Quality Bond Portfolio

Most of Mutual of Omaha's portfolio – approximately 80 percent – is invested in bonds. Our bond portfolio is very strong, with 95 percent rated as highest or high quality by the National Association of Insurance Commissioners (NAIC). We emphasize investments in those asset classes that can most effectively fund our insurance products while providing adequate risk-adjusted returns.

Highly Rated

Objective, third-party assessments offer a valuable perspective on a company's financial strength. The leading rating agencies validate and reinforce Mutual of Omaha's financial strength. We have consistently earned high marks from rating agencies such as A.M. Best, Standard & Poor's and Moody's Investors Service.

Despite the economic challenges of the past few years, Mutual of Omaha's financial strength ratings have remained strong.

In mid-2011, A.M. Best affirmed Mutual of Omaha's A+ (Superior) rating, while Standard & Poor's issued an A+ (Strong) rating and Moody's Investors Service assigned an A1 (Good) rating.

Moody's Investors Service said Mutual of Omaha's A1 rating "reflect(s) the companies' established role in supplying life insurance and fixed annuity products to the mass market and a leading position in the Medicare supplement market, as well as their excellent capitalization and good-quality investment portfolio."*

The result of in-depth research and objective analysis, these independent ratings confirm that Mutual of Omaha is strong, stable, secure and well positioned to serve your insurance and financial needs.

**A VALUABLE PERSPECTIVE ON A COMPANY'S
FINANCIAL STRENGTH.**

A.M. Best Company For overall financial strength and ability to meet ongoing obligations to policyholders	A+ (Superior) This rating is second highest of 16
